The Unified Cross Domain Management Office (UCDMO) 5th Annual Conference: Keeping Pace with Cyber

By *leahtb*
Created *07/13/2011 - 15:25*

The Unified Cross Domain Management Office (UCDMO) is pleased to announce our 5th Annual Conference, which takes place on August 1 ? 4, 2011 in Chicago, Illinois. This year?s theme is ?Keeping Pace with Cyber ? A Cross Domain Perspective?.

Keeping up with the rapidly changing information sharing environment that cyber aware customers demand is a tremendous challenge for everyone in the DoD and IC. It is imperative we work together in seeking common, collaborative practices to the many challenges this task requires. During this conference attendees will be presented with information on how the cross domain community is addressing this challenge. Through our four tracks, attendees will have opportunities to learn about: moving the communities to the Enterprise, training the Cyber Aware Workforce, going beyond the baseline towards a capabilities portfolio, and how the Cross Domain Implementation Framework (CDIF) will enable reciprocity.
